

Caitlin Nichols

Objective

I am a recent computer science graduate from Oklahoma City University with one year of hands-on experience in computer repair and troubleshooting. As a new graduate, I have an educational background in front-end, object-oriented, and web programming. I am highly determined, motivated, creative, and passionate about creating software that will help people or bring them joy. I am seeking a position that will allow me to use my current abilities and skills as well as learn new skillsets.

Skills

- Problem-Solving
- Conflict Resolution
- Web Development
- Data Structures
- Java
- Swift
